LANGUAGE POLICY at SPOJENÁ ŠKOLA NOVOHRADSKÁ

Our main aim at Spojená škola Novohradská is to create an environment where our students can maintain and develop their mother tongue and acquire or develop the language of instruction, as well as other foreign languages according their needs, thus becoming global world citizens with respect and understanding of their own and other cultures.

Our school exists in a unique social context with complex language and learning-related needs.

Our language policy must thus take into consideration the particular socio-cultural circumstances of the school community.

Detailed information on the procedures are available on the Primary Years Programme, Middle Years Programme and the Diploma programme sections of the school website.

Responsibility for Implementation and Regular Revision

All teachers, as well as the administrators and librarians are responsible for implementation of the school Language Policy. The Head of the International Baccalaureate Programme and the respective Programme coordinators are responsible for the supervision of the implementation and regular revision of the policy according to students' and school's needs.
