I General

Article 1: Scope

- 1.1 The International Baccalaureate Organization (hereinafter “the IB Organization”) is a foundation that has developed and offers three programmes of international education entitled the “Primary Years Programme” (PYP), the “Middle Years Programme” (MYP) and the “Diploma Programme”. It authorizes schools to offer one or more of these programmes to its students.
- 1.2 An “IB World School” (hereinafter “school”) is a school that has been authorized by the IB Organization to offer one or more of its programmes.
- 1.3 This document describes the regulations that apply to those schools that have been authorized as IB World Schools to offer the MYP.
- 1.4 When used herein the term “legal guardians” encompasses parents and individuals with guardianship of any student enrolled in the MYP.

Article 2: Role and responsibilities of schools

- 2.1 In addition to the articles in these *General regulations: Middle Years Programme* (hereinafter “general regulations”), schools must comply with the *Rules for IB World Schools: Middle Years Programme*, which are detailed in a separate document.
- 2.2 The IB Organization has established a curriculum framework, as well as standards, practices and requirements for the implementation of the MYP, which is an inclusive programme aimed at students in the 11–16 age group.
- 2.3 The MYP is designed to give schools and students the option of registering to receive grades validated by the IB Organization through a process of external moderation in those cases where the school has implemented year 5 of the MYP. If this option is chosen, the MYP leads to the award of MYP certificates and issuance of MYP records of achievement.
- 2.4 The IB Organization has established a curriculum framework and assessment requirements for each subject group in the MYP and the personal project, which cover the MYP in general and also define the requirements leading to the award of MYP certificates and issuance of MYP records of achievement. The IB Organization is the sole organization entitled to award MYP certificates and to issue MYP records of achievement, where students have satisfied the assessment requirements in accordance with these general regulations. Administrative details relating to these general regulations are contained in the current *MYP Coordinator’s handbook*, which is the procedures manual issued by the IB Organization for schools.
- 2.5 Because the IB Organization is not a teaching institution and does not provide teaching services to students, the MYP is implemented and taught by IB World Schools. Schools are entirely independent from the IB Organization and are solely responsible for the implementation and quality of teaching of the MYP.
- 2.6 Schools are responsible for informing students and legal guardians regarding the general characteristics of the MYP and how the school implements it.
- 2.7 The IB Organization cannot guarantee that a school will remain capable and willing to implement the MYP. Consequently, schools bear sole responsibility towards students and legal guardians if, for any reason, a school’s authorization to implement the MYP is withdrawn by the IB Organization or a school decides to terminate its authorization.

II The Middle Years Programme

Article 3: Recognition of the MYP certificate and MYP record of achievement

The IB Organization attempts to ensure recognition of the MYP certificates and MYP records of achievement but does not guarantee their acceptance by other educational institutions—whether or not these are authorized by the IB Organization—or by the relevant educational authorities. Consequently, students and legal guardians bear the sole responsibility for verifying the position in this regard of all institutions in which a student is interested in enrolling and for consulting the relevant legislation.

Article 4: Implementation of the programme

- 4.1 The MYP is designed as a five-year programme in which students are exposed to structured learning in eight subject groups each year. Where a five-year programme is not possible, schools may be authorized by the IB Organization to implement a shorter programme, in accordance with the requirements set out in the current *MYP Coordinator's handbook*.
- 4.2 Schools must implement the MYP in conformity with the *Programme standards and practices, MYP: From principles into practice*, the current MYP subject guides and *MYP Coordinator's handbook*—the procedures manual issued by the IB Organization for schools.
- 4.3 Objectives and final assessment criteria are prescribed for all MYP subjects and the personal project. However, prescription regarding curriculum content is kept to a minimum to preserve the flexibility of the programme.
- 4.4 Students enrolled in year 5 of the MYP must satisfy the assessment requirements in all eight subject groups. An exception to this is that students may be assessed in two languages A instead of one language A and one language B.
- 4.5 In addition to satisfying the assessment requirements of the eight subject groups, students must:
 - a. submit a personal project—a significant body of work produced over an extended period in the final year of the programme
 - b. have met the expectations of community and service to the satisfaction of the school.
- 4.6 Students and their legal guardians must use the school's MYP coordinator as the intermediary for any communication with the IB Organization.
- 4.7 If legal guardians have any questions regarding the general contents of the MYP (curriculum and philosophy) or how the school implements it, they must address themselves to the school's MYP coordinator.

Article 5: Languages

- 5.1 The MYP may be taught in any language or languages. However, to be eligible for the MYP certificate and MYP record of achievement, students must reach sufficient competency to ensure work sent for moderation is in one of the languages of the MYP—English, French or Spanish—for all subject groups, except languages A and B.
- 5.2 For grades to be validated, some languages A and B may need approval from the IB Organization.
- 5.3 The IB Organization may also approve language courses that are equivalent to MYP language A but not necessarily taught by the school. In this case, an explanatory statement is given in place of a language A grade on the MYP record of achievement.

Article 6: Use of student materials submitted to the IB Organization

- 6.1 Students completing assessment tasks produce materials in a variety of forms. These materials (hereinafter “the materials”) include all forms of written work, audio and visual materials, computer programs and data and, in certain cases, may contain images of the students.
- 6.2 Students retain copyright in all materials submitted for monitoring or moderation purposes, but by submitting those materials, and subject to article 6.5, students thereby grant the IB Organization a non-exclusive, charge-free, worldwide licence, for the duration of the statutory copyright protection, to reproduce submitted materials in any medium for assessment, educational, training and/or promotional purposes relating to the IB Organization’s activities, or to those related activities of which it approves.
- 6.3 Wherever the materials are held for moderation or monitoring of assessment purposes, for example by the school, by an IB Organization moderator or at the International Baccalaureate Curriculum and Assessment Centre (hereinafter “IB Cardiff”), they are always held on behalf of the IB Organization.
- 6.4 Where the IB Organization uses these materials for purposes other than assessment, it may modify, translate or otherwise change them to meet particular needs and will anonymize them before publication in print or in electronic form.
- 6.5 Under exceptional circumstances, a student may withdraw this licence for a specific piece of work, as provided in article 6.2. In such case the IB Organization must be notified in accordance with the procedure described in the current MYP *Coordinator’s handbook*. The student must submit a written notification to the school’s MYP coordinator, who has the duty to inform the IB Organization by the due date. In these cases, the IB Organization will use the material only for moderation or monitoring of assessment purposes.
- 6.6 All materials submitted to the IB Organization for moderation or monitoring of assessment purposes become the property of the IB Organization, which, once the moderation or the monitoring of assessment is complete, is entitled to retain the materials for record-keeping purposes or to destroy them according to its needs.

Article 7: Use of student data

The IB may use data in ways relevant to carrying out its legitimate purposes and functions, such as research on IB students’ educational paths and performance, and will take due care in the use, collection and storage of data and do its utmost to keep all data accurate, timely and secure.

III Assessment

Article 8: Assessment procedures

The work of MYP students is internally assessed by teachers. The IB Organization does not provide examinations. When students reach year 5 of the programme, schools have the option of registering students to receive grades validated by the IB Organization, through a process of external moderation of schools’ internal assessment.

Article 9: Eligibility for the MYP certificate

Only students who have participated in years 4 and 5 of the programme are eligible for the MYP certificate. Other students are eligible for the MYP record of achievement only.

Article 10: Registration process for grades validated by the IB Organization

Students who wish to have their grades validated by the IB Organization must be registered by the school, must take the requisite subject courses and must complete assessments at the school. The school must complete such registrations and pay the related fees by the relevant deadlines. Only students whose grades have been validated by the IB Organization and have met specific assessment requirements are eligible to be awarded the MYP certificate and to be issued with a MYP record of achievement.

Article 11: Notice of assessment requirements

It is the responsibility of schools to ensure that students comply with all the assessment requirements of the MYP. It is also the responsibility of schools to submit samples of students' work for moderation in line with IB Organization requirements and deadlines. Non-compliance with these requirements may mean that MYP certificates and MYP records of achievement cannot be awarded.

IV Grades validated by the IB Organization

Article 12: Internal assessment

To be eligible for the MYP certificate and MYP record of achievement, students must complete (as a minimum) the assessment tasks prescribed by the IB Organization for each subject group. These tasks are set by teachers, normally in the final year of the programme, and assessed internally according to IB Organization subject-specific assessment criteria that address the objectives in the appropriate group. Teachers must also supervise and assess the personal project in the same way.

Article 13: Determination of grades

- 13.1 Teachers must assess each student's work against IB Organization-prescribed criteria for each subject in which the student is registered. The personal project is also assessed by teachers against the IB Organization-prescribed criteria. The levels achieved for each criterion are added together to give a criterion levels total for each student in each subject and the personal project.
- 13.2 The final grade is determined by the IB Organization, following a process of external moderation, as outlined in article 14.
- 13.3 Grades range from 1 (lowest) to 7 (highest). IB Organization grade descriptors are published, which indicate the standard achieved for each grade.

V Moderation

Article 14: Moderation of students' work

- 14.1 Moderators appointed by the IB Organization review and assess samples of students' work according to the same IB Organization subject-specific assessment criteria used by teachers.
- 14.2 Validated grades are determined by the IB Organization by applying the grade boundaries to the moderated criterion levels totals. Students' grades may or may not be adjusted depending on whether or not teachers' assessments in their school meet predetermined standards for each subject and the personal project.

VI Award of the MYP certificate and MYP record of achievement

Article 15: Conditions for the award of the MYP certificate and MYP record of achievement

- 15.1 MYP certificates and MYP records of achievement will only be awarded to students whose grades have been validated by the IB Organization.
- 15.2 The IB Organization will award an MYP certificate to each registered student who has participated in years 4 and 5 of the programme and has achieved an overall standard in all aspects of the MYP. The student must have:
- gained a grade total of at least 36 from the eight subject groups and personal project combined, out of a possible maximum of 63
 - gained at least a grade 2 in at least one subject from each subject group
 - gained at least a grade 3 for the personal project
 - met the expectations of community and service to the satisfaction of the school.

If more than one subject has been entered in a given subject group, only the single best grade will count towards the MYP certificate.

- 15.3 The IB Organization will issue an MYP record of achievement to each student indicating:
- the grade obtained for each subject in which the student has been registered
 - the grade obtained for the personal project
 - that community and service requirements have been met, unless the school notifies the IB Organization to the contrary.

VI Special cases

A: Special needs

Article 16: Definition of special needs

A special need is any permanent or temporary diagnosed need that could put a student at a disadvantage and prevent him or her from being able to demonstrate skills and knowledge adequately.

Article 17: Eligibility

Students with diagnosed special needs are not prevented from following the MYP or from being eligible for the MYP certificate and MYP record of achievement. However, where a student's special needs make assessment of some of the objectives impossible the student's eligibility for the MYP certificate may be affected.

Article 18: Applicable procedure

- 18.1 Special needs must be reported by the candidate's legal guardian to the school's MYP coordinator as early as possible after identification. The IB Organization must be informed—as soon as possible but no later than the end of the year 4 of the student(s) concerned—of any case where a diagnosed special need makes assessment of some of the course objectives impossible.
- 18.2 In these cases, schools are expected to make every effort to accommodate the needs of the student. The IB Organization will consider any requests for special arrangements according to principles stated in the current *MYP Coordinator's handbook*.
- 18.3 When the special needs of a student are such that an objective for a subject cannot be assessed, a grade for that subject cannot be awarded. However, the IB Organization may, in certain circumstances and under certain conditions, where a request from the school has been supported by all the necessary information and documentation, as well as evidence of work achieved, award the MYP certificate and MYP record of achievement to a student with special needs who has not met all the objectives for a particular subject, provided all other conditions for the award of the MYP certificate have been met.

B: Adverse circumstances

Article 19: Definition of adverse circumstances

Adverse circumstances are defined as those beyond the control of the student that might be detrimental to his or her performance, including severe stress, exceptionally difficult family circumstances, bereavement or events that may threaten the health or safety of students during the final two years of the programme. Adverse circumstances do not include shortcomings on the part of the school at which a student is registered.

Article 20: Applicable procedure

Any application for special consideration in cases of adverse circumstances must be submitted to IB Cardiff as soon as possible by the school's MYP coordinator on behalf of the student(s).

C: Malpractice

Article 21: Definition of malpractice

- 21.1 The IB Organization defines malpractice as behaviour that results in, or may result in, the student or any other student gaining an unfair advantage in one or more assessments. Malpractice includes the following.
- a. Plagiarism: this is defined as the representation of the ideas or work of another person as the student's own.
 - b. Collusion: this is defined as supporting malpractice by another student, as in allowing one's work to be copied or submitted for assessment by another.
- 21.2 The IB Organization recognizes that work submitted by students for moderation of internal assessment may contravene the standard academic practice of clearly acknowledging all ideas and words of other persons. Where the school considers this is not a deliberate attempt by a student to gain an unfair advantage, the school should take action to ensure that the practice is not repeated. If plagiarism is found by a moderator, the piece of work is not moderated. The school is contacted by the IB Organization and asked to deal with the issue.

Article 22: Responsibilities of students

Students are required to act in a responsible and ethical manner throughout their participation in the MYP and assessments. In particular, students must avoid any form of malpractice.

Article 23: Applicable procedure

23.1 It is the responsibility of each school to ensure that all work used for final assessment is the individual work of the student. If a school has any doubts about the authenticity of students' work, results should be withheld by the school for those students until it resolves the matter.

23.2 It is the responsibility of each school to submit to the IB Organization only authentic work and results for each student.

VII Final provisions

Article 24: Governing law

Swiss law governs these general regulations and all other procedures relating to the assessment requirements.

Article 25: Arbitration

Any dispute arising from or in connection with these general regulations shall be finally settled by arbitration, taking place in and in accordance with the rules applicable in Geneva, Switzerland. The proceedings shall be confidential and the language of the arbitration shall be English.

Article 26: Entry into force and transitory rules

This version of *General regulations: Middle Years Programme* shall enter into force on 1 September 2011 for June session schools or 1 January 2012 for December session schools. The IB Organization may amend these general regulations from time to time. Each amended version applies to all students enrolling in the MYP after the date of entry into force of the amended version.
