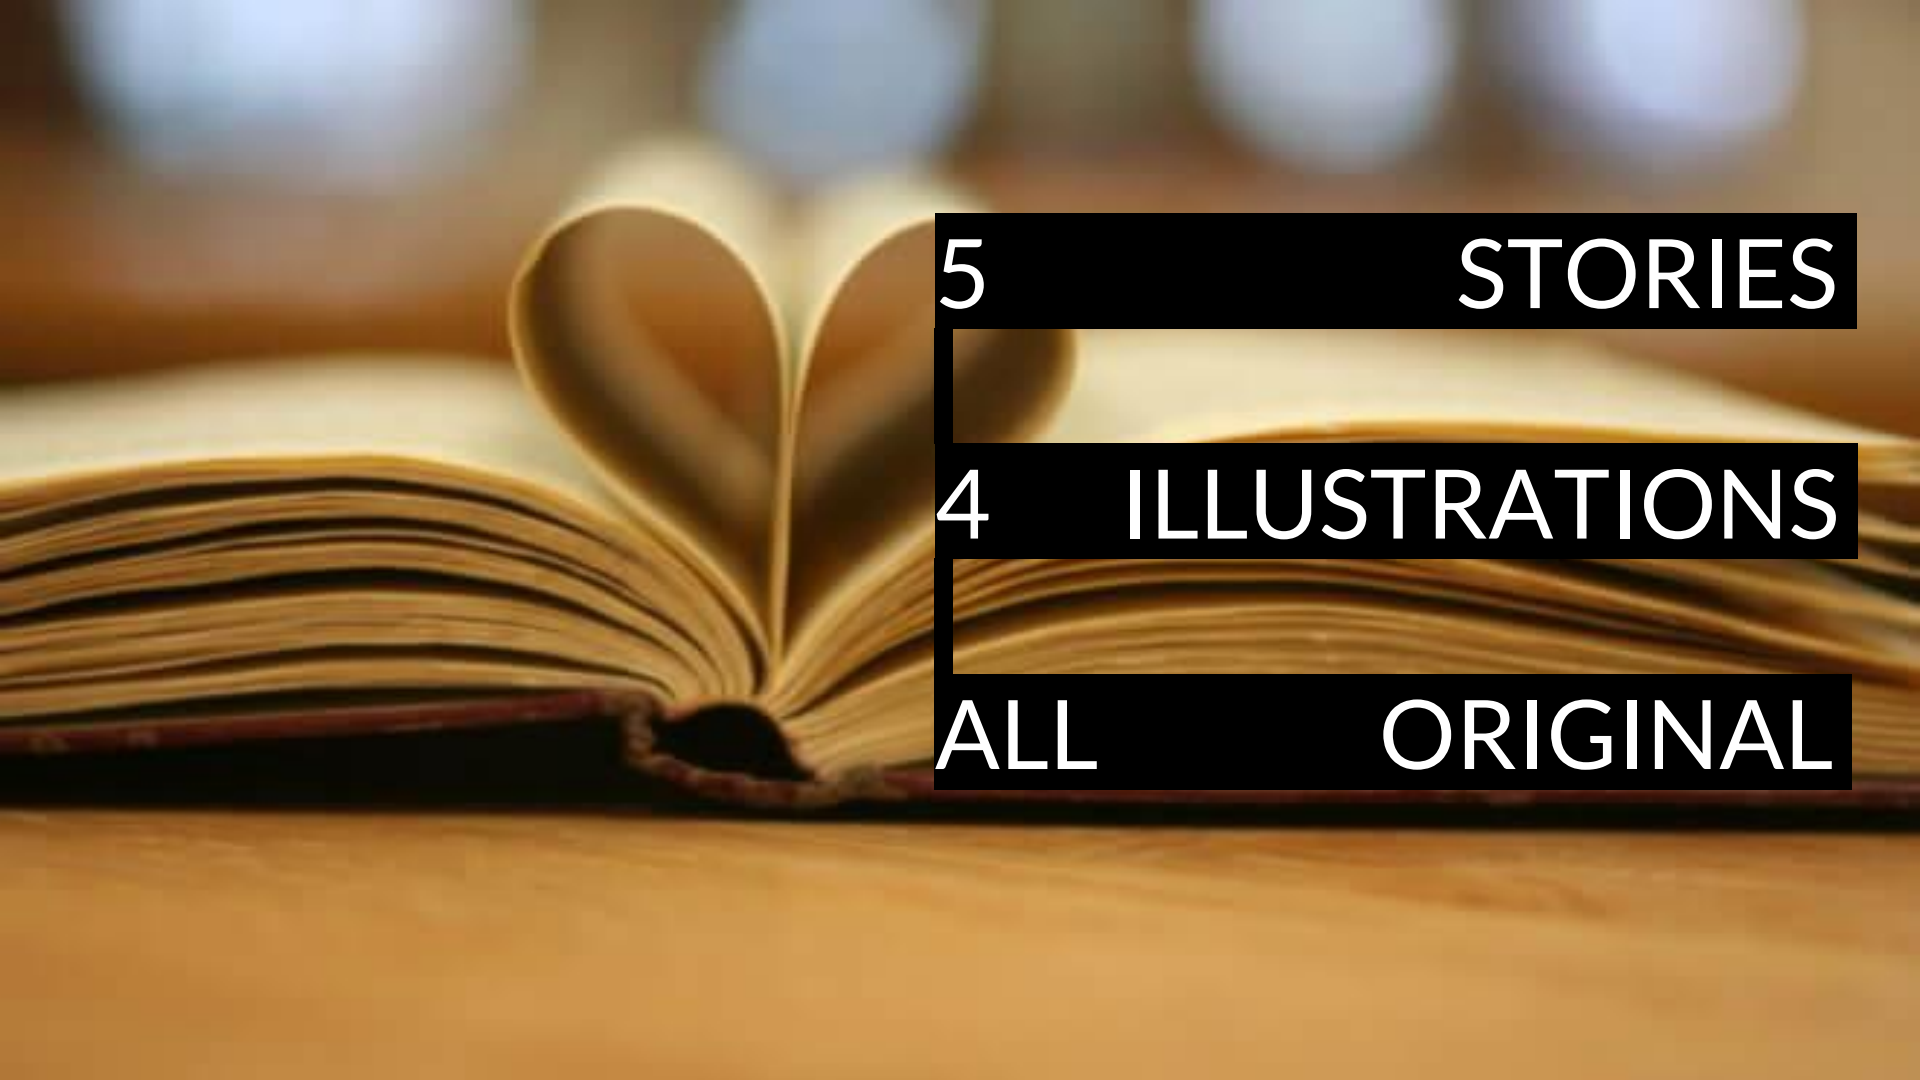
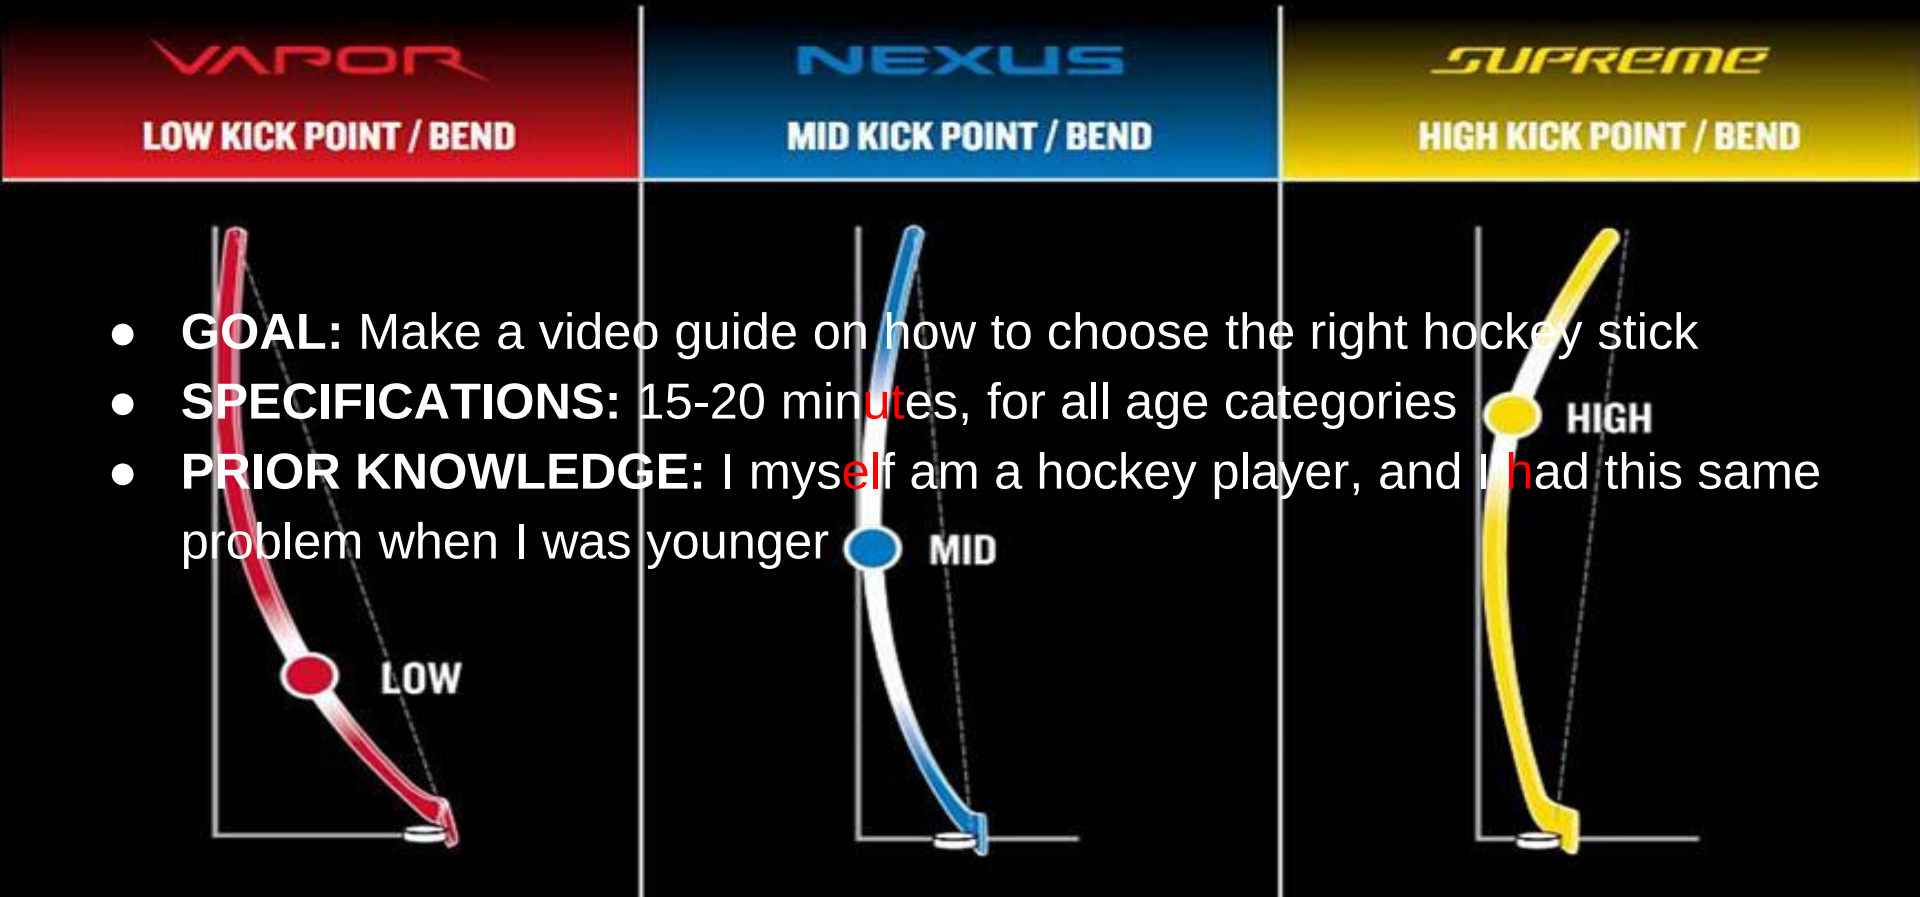
MAKING A STORY COLLECTION BOOK



5 STORIES
4 ILLUSTRATIONS
ALL ORIGINAL

GUIDE TO HOCKEY - HOCKEY STICKS

WHICH ONE IS RIGHT FOR ME?



- **GOAL:** Make a video guide on how to choose the right hockey stick
- **SPECIFICATIONS:** 15-20 minutes, for all age categories
- **PRIOR KNOWLEDGE:** I myself am a hockey player, and I had this same problem when I was younger

BUILDING A HOME SERVER

What is a server?

And why have one in a home?

What was my home server supposed to do?

- Provide networked storage
- Act as a home theater PC
- Automatically backup personal files
- Act as a print server

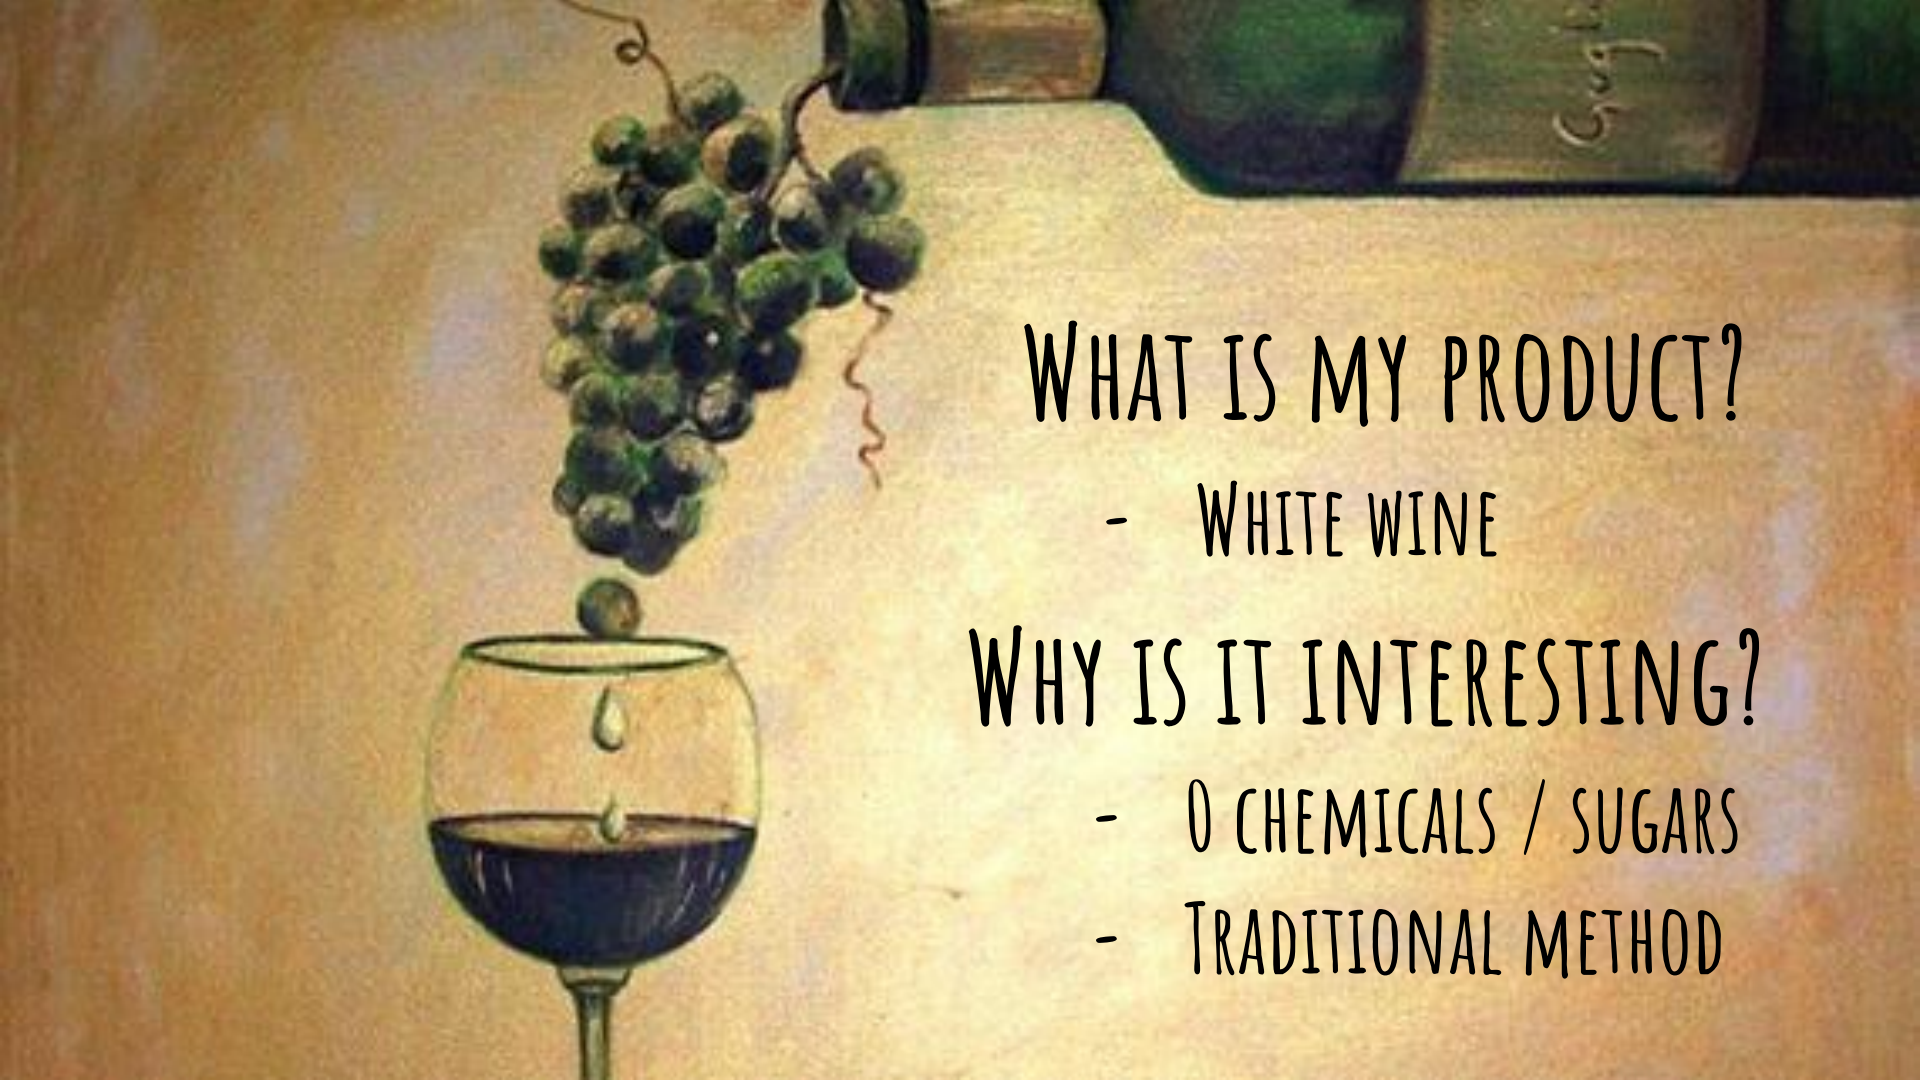
What I knew

- How to build computers
- Sort of how to use some required software
- That it can be done

What I didn't know

- Exactly what software is required
- How to use and set up said software
- How to make it do what I wanted
- How to maintain and administer a server

Traditional
Winemaking



What is my product?

- White wine

Why is it interesting?

- 0 chemicals / sugars
- Traditional method

```
196         print("Non midi file or file not found")
197         return None
198
199     #inittime
200     totalTime = 0
201     sheet = []
202
203     if custom == True:
204         #for custom track
205         sheetCus = []
206         #choose the track
207         print(file.tracks)
208         try:
209             trackIndex = [int(i) for i in input("Choose tracks exclude (integer numbers, spaces inbetween,: ").split()]
210         except:
211             print("Invalid input")
212             return
213
214         trackEx = [file.tracks[index] for index in trackIndex]
215
216         for midiMsg in file:
217             totalTime += midiMsg.time
218             #filter for purely no
219             if midiMsg.type == "n                                                    for track in trackEx for msg in track]:
220                 sheet.append((midiMsg, totalTime))

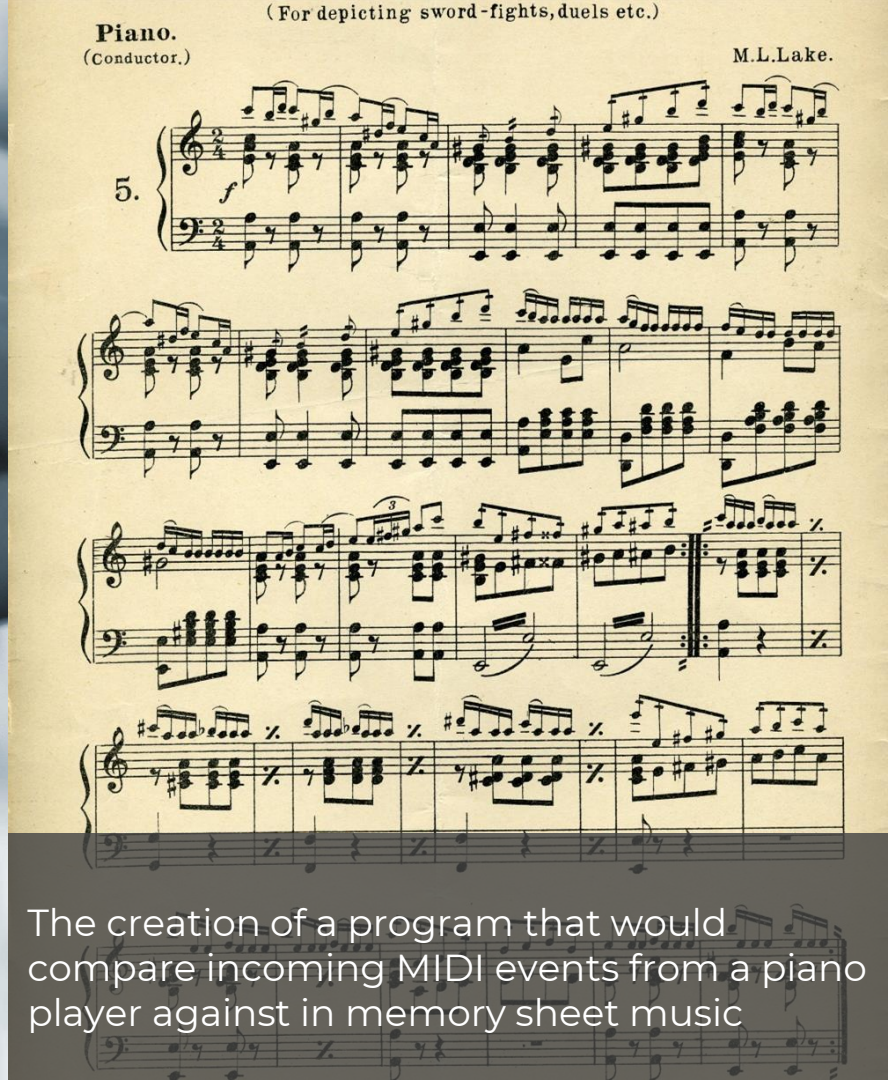
MIDI Event Checker

Goal



The creation of a program that would compare incoming MIDI events from a piano player against in memory sheet music

Prior Knowledge

Amateur programmer

Amateur piano player

Challenges

Digital formats of music

Python libraries for MIDI events

Creation of a large project

Henna designs portfolio

Aim of my project

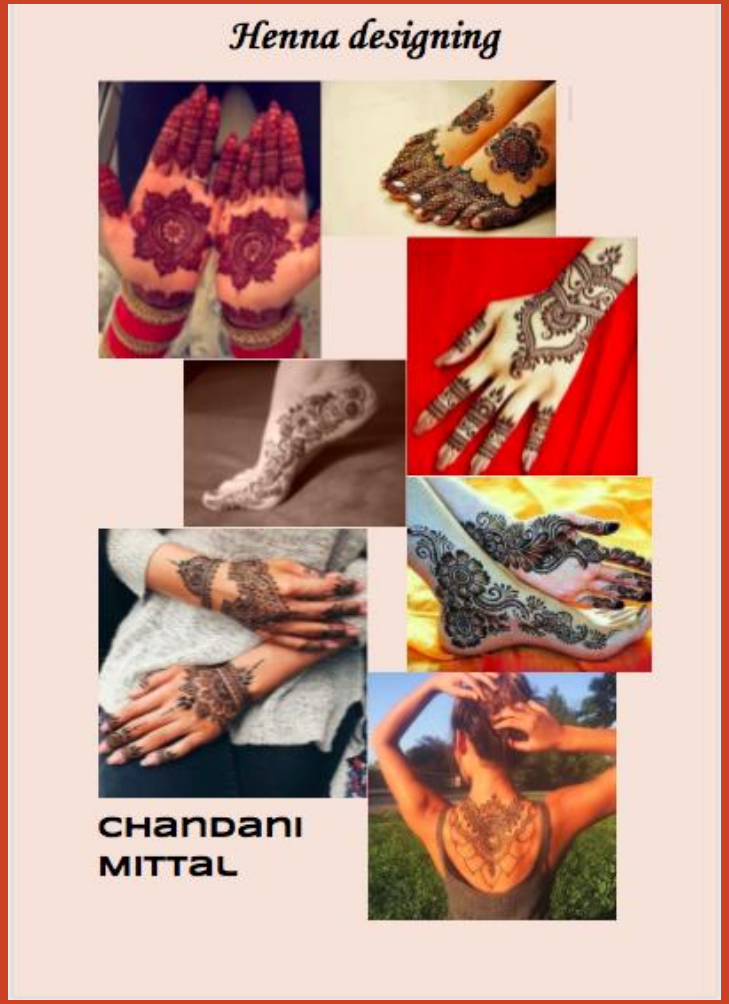
- Create own portfolio of henna designs
- Help the audience understand the significance of henna in Indian culture

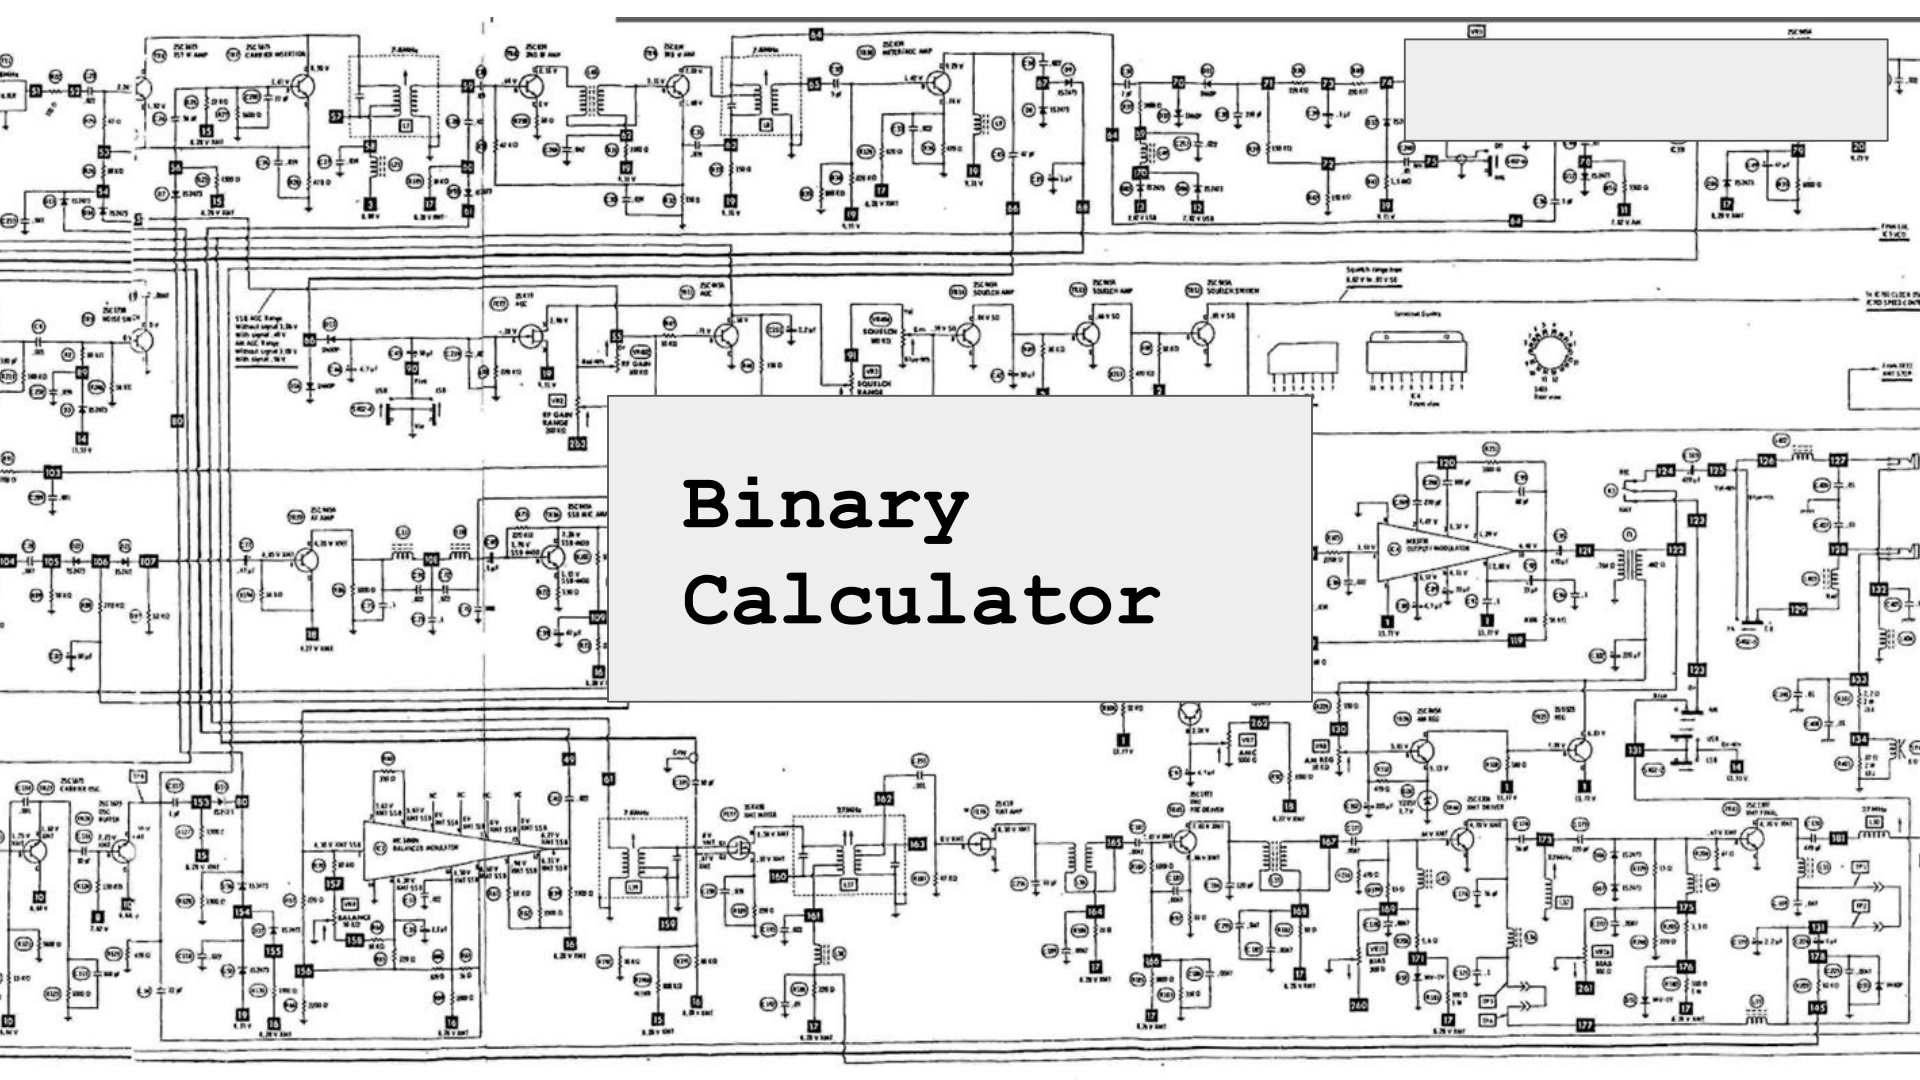
Prior experience:

- Exposed to this type of art since a very young age
- Attended henna applying ceremonies during Indian weddings numerous times
- Practising designing in free time

Specifications

- Max. A3 format
- 4 categories of designs:
  - Front arm
  - Back arm
  - Palm
  - Finger
- Min. 3 designs for each category

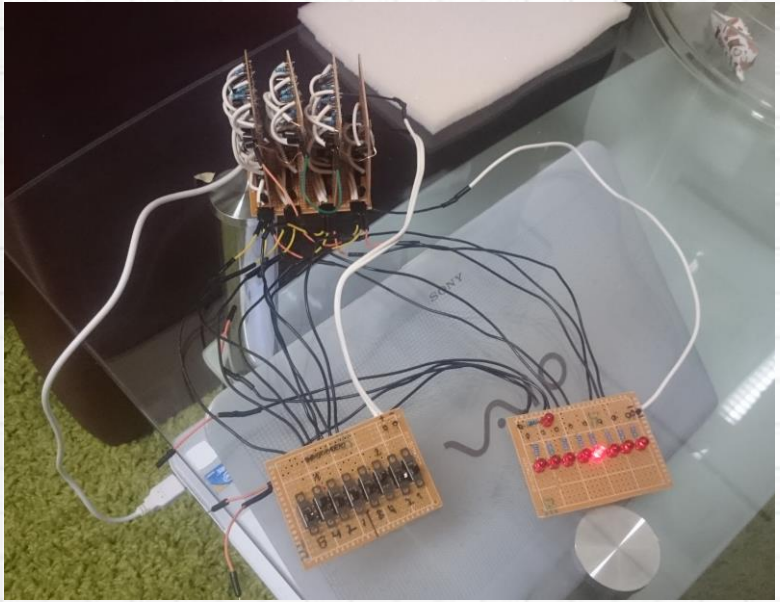




Binary
Calculator

Why is it special?

Designed and manufactured by me.
Built from the ground up
Only using basic electronic components.



Limited previous experience

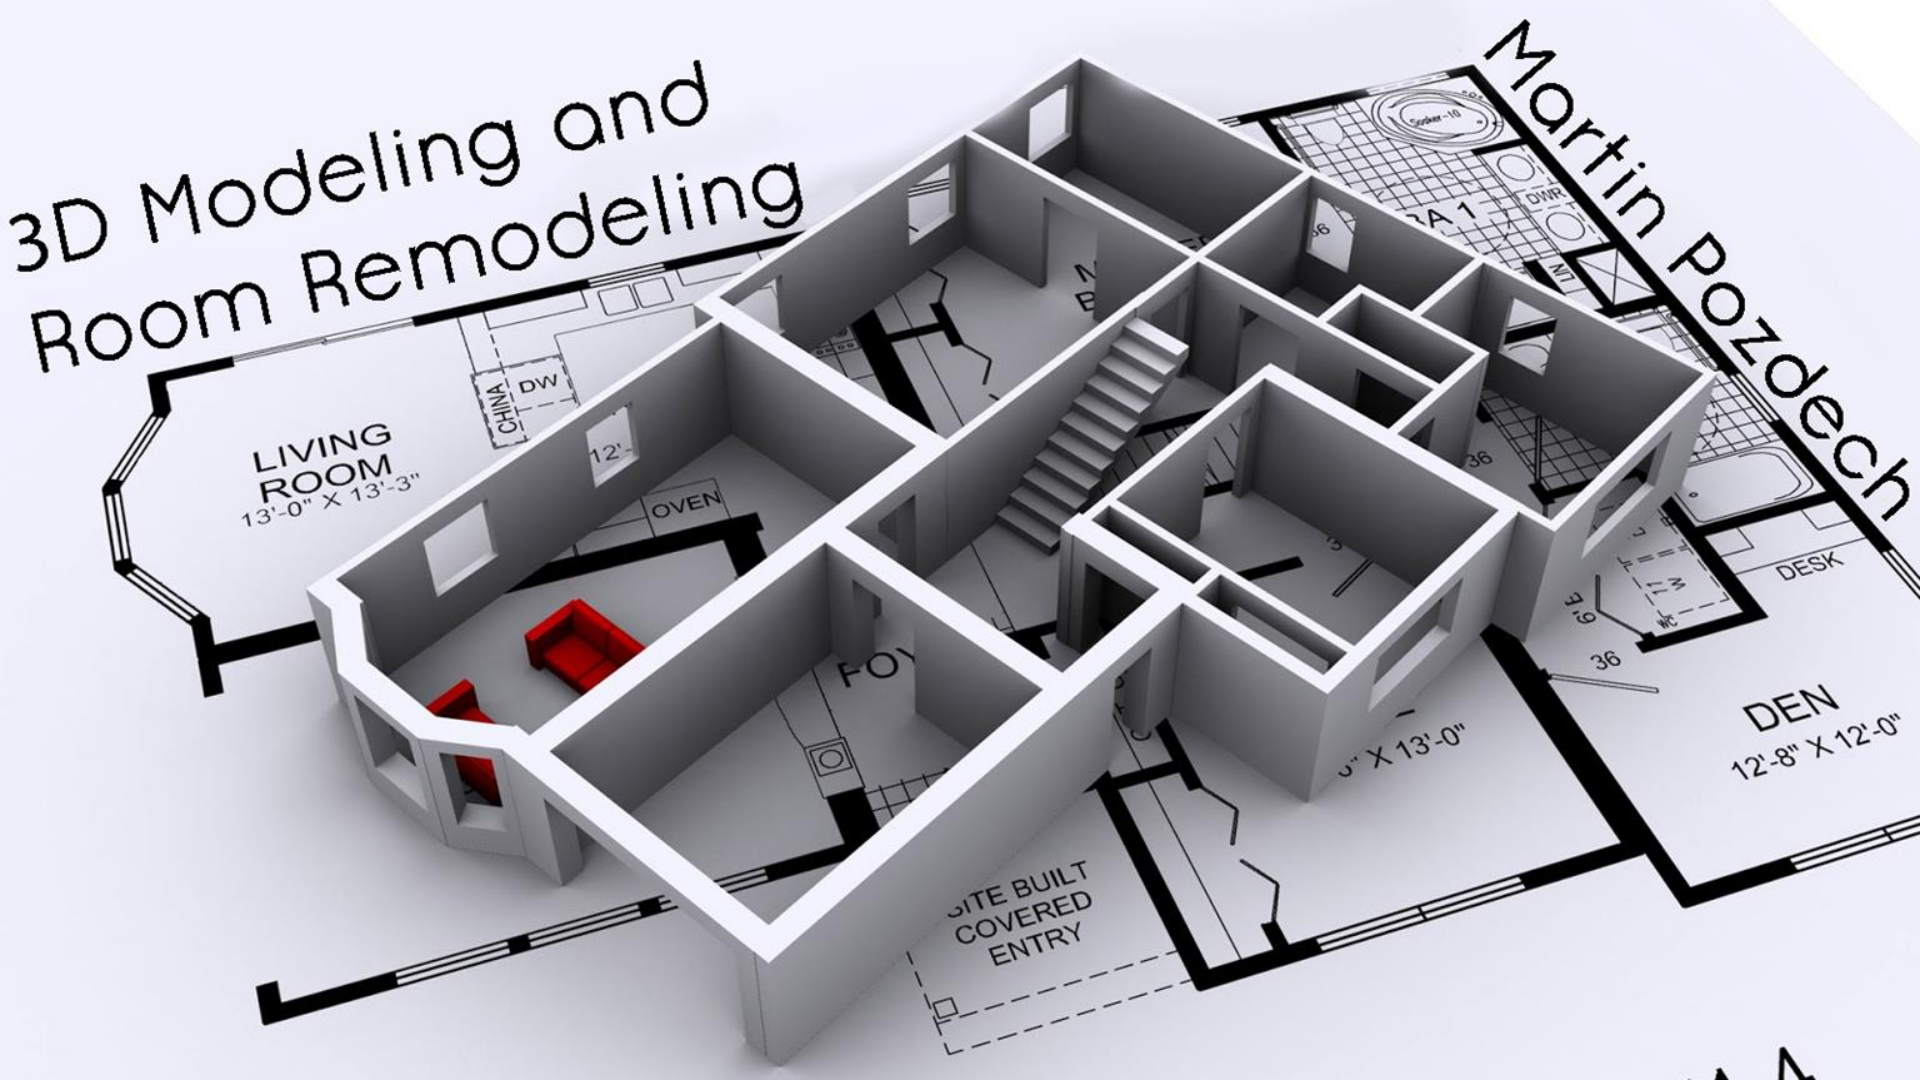
Repairs for family
No experience with design

Lessons Learned

Just because it works in theory doesn't mean it'll work in practice

3D Modeling and Room Remodeling

Martin Pozdech



Goal:
Create a Accurate 3D Model of my Room
Final Products:
Accurate Model
Remodeled Room
SketchUp

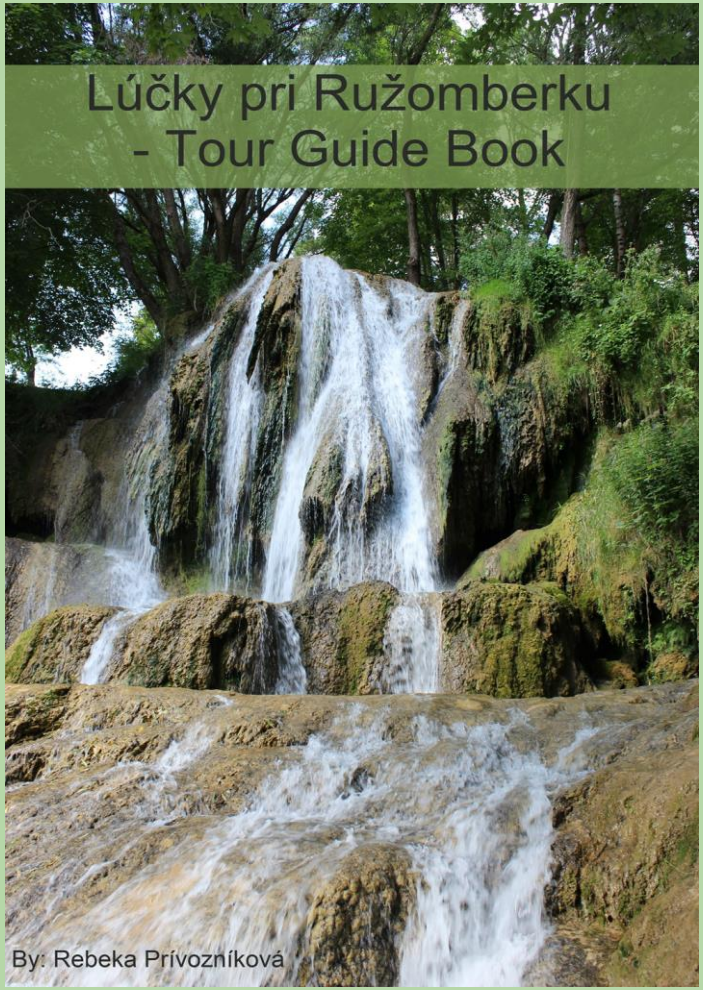
Tour Guide Book - Lúčky pri Ružomberku

Goal

Create a tour guide book informing the general public about the village and presenting it as a good touristic location

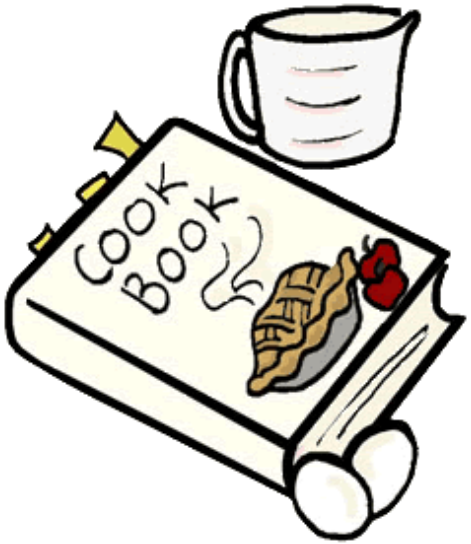
Why did I choose it?

- Personal connection via my grandmother, who lives there
- Prior knowledge due to holiday visits
- Enjoy writing and travelling



Specifications

- Maximum A4 format
- Minimum 15 pages
- Combine information from first-hand and second-hand sources
- Combine own pictures with pictures from the internet
- At least four of these categories:
  - History
  - Places to visit
  - Accommodation
  - Restaurants
  - Field trips



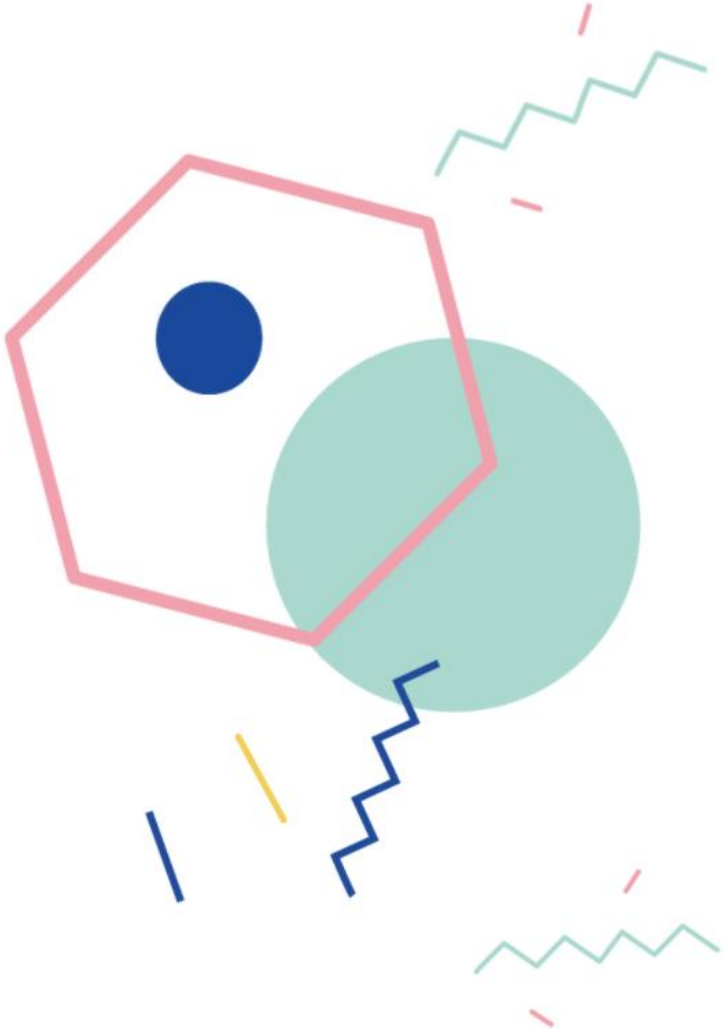
Traditional cookbook

Specifications:

- A4 sized
- Both English and Slovak
- Around 30-50 recipes
- Only Traditional recipes, maybe with a twist
- Simple, so that anyone can do it

What I wanted to achieve:

- Learn more about our culture and history through foods
- Have a fun time



Personalized Poems

Aim:

- Wishing through poems
- giving the opportunity to others
- Keeping it personal

Specifications:

- at least 5 different templates
- Display my works as examples of how i write
- Bilingual website

The End?
Thank you for your attention!
